EDITOR'S COMMENTS

Dear Authors,
Thanks for your interest and submitting your work to our book.

Revised title:

Improving Edible Oilseed (Oil Palm) Health and Productivity: Integration of Sustainable Pest Management, Precision Farming and Stakeholder Collaboration

However, listed below concerns need to be addressed before its final acceptance:

1. Addition of two separate small tables with listed below legend will improve the overall impact of this chapter.

Table 1. Representative studies on the role of integrated pest management in oil palm (*Elaeis guineensis* Jacq.)

Table \. Representative studies on the role of precision farming in the management of major pests in oil palm (*Elaeis guineensis* Jacq.)

\. Conclusion and Prospects should be more strengthened by highlighting the aspects so far not explored in the current context.

.....

Authors, please consider the changes made in the 'revised manuscript, which will be shared with you.

Looking forward to your revised chapter.

Editors.
